

Electric Vehicle Supply Equipment Application for Approved Product List

Please complete this application to request your technology be added to the electric vehicle supply equipment (EVSE) approved product list for EnergiIZE Commercial Vehicles - Energy Infrastructure Incentives for Zero Emission Vehicles. Please refer to the Electric Vehicle Supply Equipment Standards Reference List for guidance on which standards may apply to each class of EVSE. Please note, if your equipment is already approved and listed on the Southern California Edison Charge Ready Transport list, you do not need to fill out this application.
